## PROJECTS

### PORTFOLIO

Jun 2025 - Sep 2025

React | Node.js | Express.js | Tailwind CSS | MongoDB | Framer Motion | Three.js | Google Gemini API

- Developed a dynamic, fully responsive personal portfolio from scratch using the MERN stack to showcase my skills in a modern, interactive format.
- Built an interactive web terminal allowing users to navigate the site via custom commands, demonstrating advanced frontend development and a creative user experience.
- Integrated the GitHub API to dynamically fetch and display my latest repositories and contribution activity, providing live proof of continuous coding work.
- Implemented complex 3D animated backgrounds using Three.js and a custom HTML5 Canvas particle system, creating an immersive and visually engaging environment.
